About Green Circuit

Vikasana Foundation proudly presents Green Circuit, a grand initiative integrating two flagship events—Cycle Street and Ecomiles—to promote environmental sustainability and community well-being. Through this initiative, we aim to inspire individuals to adopt greener lifestyles while addressing pressing ecological concerns.

GREENCIRCUIT

Our Philosophy

Vikasana Foundation, believes in safeguarding the five fundamental elements of nature that sustain life:

- Earth (Prithvi) – By conserving land and enhancing greenery in urban spaces.
- Water (Jal) – By advocating for water conservation and rejuvenation of natural water bodies.
- Fire (Agni) – By promoting clean energy and reducing pollution.
- Air (Vayu) – By encouraging eco-friendly transportation and reducing carbon emissions.
- Space (Akasha) – By fostering a harmonious environment for all living beings.

Green Circuit embodies this vision by promoting sustainable mobility, reducing pollution, and raising funds for a noble cause.

CYCLE STREET

Cycle Street is a flagship event of Green Circuit, dedicated to promote cycling as an eco-friendly alternative to motorized transport. This initiative seeks to raise awareness about the benefits of reducing vehicular emissions, improving public health, and creating sustainable urban mobility solutions. Since its inception in 2018, Cycle Street has inspired thousands to embrace cycling as part of their daily commute.

The event is open to students, professionals, fitness enthusiasts, and anyone passionate about sustainability. By taking part in this cyclathon, participants actively contribute to a cleaner, healthier, and more livable environment.

ECOMILES

Ecomiles encourages individuals to walk for a cause—a cleaner and greener environment. Walking is one of the simplest and most effective ways to promote health while reducing carbon footprints. Ecomiles is designed to inspire people to adopt environmentally conscious behaviors, such as reducing plastic waste, maintaining clean surroundings, and supporting sustainable urban living.

Through this initiative, participants actively engage in promoting clean air, responsible waste disposal, and a commitment to eco-friendly practices.

Previous Success

In its 5th year, Cycle Street has seen grand success in the previous years. Over 3,000 participants actively took part in the rally, making it a favorite activity for the youth of South Bengaluru. It has created significant awareness about staying fit and healthy in a busy city lifestyle.

Fundraising Activity

The program also proposes to generate funds for a noble cause. The funds generated will be utilized for the renovation and beautification of Government Schools through the Vikasana Foundation's Samskruti Initiative.

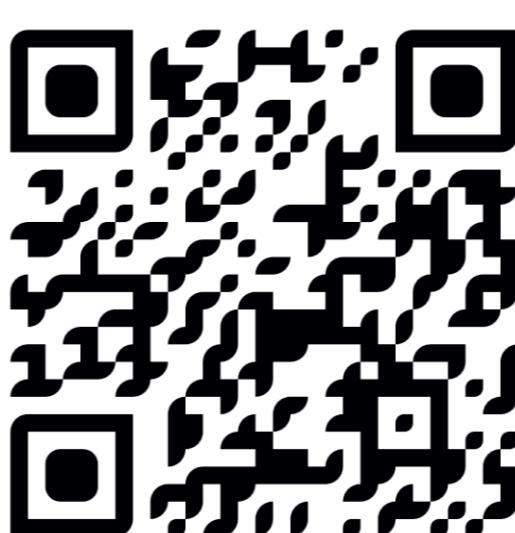

About Samskruti Initiative

Samskruti Initiative is a project by the Vikasana Foundation dedicated to improving the infrastructure and environment of Government Schools. Our intentions are to create a better learning environment for students, ensuring they have access to quality education and facilities. The impact of our efforts has been profound, with numerous schools benefiting from the renovations. By improving the infrastructure and environment of Government Schools, we aim to make them more attractive and accessible to students, encouraging more enrollments. However, we need your support to continue our mission and raise funds to bring positive changes to more schools. Your contribution can make a significant difference in the lives of many students and help build a better future for our community.

We sincerely appreciate your concern and support for this noble cause and look forward to your participation in Cycle Street. Let's come together to make a tangible impact on our community and promote a sustainable and eco-conscious lifestyle.
